

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2020 to 2021 academic year. Due to COVID-19, performance measures have not been published for 2020 to 2021, and 2020 to 2021 results will not be used to hold schools to account. Given this this data show the outcomes for our children eligible for Pupil Premium funding. In the academic year 20-21 the information is based on Teacher Assessment and internal assessment.

The data tells us that the national lockdown lock down due to COVID in term 3 & 4 has affected the progress in attainment by our PPG pupils. You will see from the additional support put in place in the tables below that in most cases a high number of our PPG

pupils had access to these interventions. This assessment provides us with the evidence to put the funding support for the academic year 21-22 to accurate and targeted use for this group of pupils.

Teaching Assistant Support

Unplanned additional support was put in place following pupils return from COVID lockdown between 4th Jan 21- 8th March 21. Statistics on pupils accessing the home learning provision put in place and assessment of pupils returning to school supported identification of pupils for the interventions
